

GENERAL SALES CONDITIONS

Article 1 – Scope of application

Unless otherwise stipulated in the commercial proposal or in the order acknowledgement, the sales of **BROGI S.A.S.** (and its divisions, as well as its commercial brand **FILTER-MASTER®**) are exclusively subject to these general sales conditions, to the exclusion of all other documents such as commercial leaflets, catalogues, documentation issued by BROGI S.A.S., which are only given to provide information and whose value is merely indicative.

Placing a purchase order with BROGI S.A.S. implies unreserved agreement with these general sales conditions, whatever stipulations may appear to the contrary on the Client's purchase order form or on its general purchasing conditions or on any other document issued by the Client.

Article 2 - Purchase orders

Purchase orders received by BROGI S.A.S. following its technical & commercial proposal are not definitive and do not commit BROGI S.A.S. until BROGI S.A.S. has accepted the purchase order in writing in the form of a purchase order acknowledgement.

Article 3 – Drawings – Designs – Quotations

The design and the determination of the Products are subject to a specific request from the Client as well as a specific contract.

BROGI S.A.S. reserves the right to make any modification it deems useful or necessary to design and fabrication in progress.

Drawings, design and quotations produced at the Client's request remain the intellectual property of BROGI S.A.S. and cannot be communicated to third parties, or carried out without prior written authorization from BROGI S.A.S..

The only documents handed over to the Client are prints of layout drawings, general assembly drawings and those required for maintenance, to the exclusion of any other fabrication drawings or engineering document.

The weight, the dimensions and other details on the drawings, engineering documents and quotations as well as on the catalogues and advertising literature are only given as examples and do not call BROGI S.A.S. responsibility into play.

Article 4 – Prices

4.1. The prices featuring in the commercial proposal are valid for one month from the date of issue of the proposal, unless otherwise stipulated.

The prices mentioned in the purchase order confirmation are firm and apply to items ex-works, excluding tax, packaging, and customs duties for exports (unless otherwise stipulated in the purchase order acknowledgement).

4.2. The prices thus determined can be modified at any time in proportion to the price increases of the raw material and of the salaries, as per the formulas usually applicable in such case.

The revision applies for the period starting on the month of issuance of the proposal and ending on the month of payment. Application of this clause cannot give right to cancellation of the purchase order.

Article 5– Invoicing – Payment

An invoice is issued for each delivery. Invoices are payable net and without discount 30 days starting after the last day of the month of issuance of the invoice.

Failure to pay within the above period shall lead to penalties being claimed from the Client; said penalties being equal to an interest rate of one and half times the legal rate of interest on the sums due.

Failure to pay all or part of the price by the end of the stipulated period shall lead to the immediate enforceability of payment of all the sums still owed to BROGI S.A.S. by the Client, even if they have not reached their maturity date and whatever the method of payment considered.

In addition, in the event of non-payment, 48 hours after formal notice to pay sent by registered letter with request for acknowledgment of receipt remained unsuccessful, BROGI S.A.S. will have the option of terminating the sale and/or all orders in progress and request the return of the Products already delivered. In the event of termination of the sale, the sums already paid to BROGI S.A.S. will remain acquired by way of compensation.

Possible claims shall not dispense the Client from paying each invoice on its maturity date; likewise for any delay in the shipment, assembly and start-up of materials not imputable to BROGI S.A.S..

In the case of sale, transfer, pledging, contribution as goodwill to equity capital or any other modification relating to the Client's legal structure, BROGI S.A.S. may be entitled to demand the immediate payment of outstanding sums owed by the Client, including invoices that have not yet reached their maturity date.

In case of the conformity of the characteristics and performances with the specifications the Client shall pay for all the expenses incurred by BROGI S.A.S..

In case of conflict on the validity of the checks conducted by BROGI S.A.S., the Client and BROGI S.A.S. will have the checks conducted by a third party. All costs incurred will be charged to the party finally recognized as faulty.

The guarantee consists in the replacement free of charge, in the same quantities, of parts acknowledged as not in conformity by BROGI S.A.S. to the exclusion of any compensation, damages and interest. Whatever the case, BROGI S.A.S. in no way guarantees against indirect damage and intangible damage (especially losses of production) of whatever nature that could be caused by the Products delivered.
