Who We Are

FILTER-MASTER was founded in 2020 by Nicolas BROGI. FM supplies spare parts and accessories for smoke filtration and dust removal systems to industrial companies. With our expertise, we support our clients by guiding them in their operations, helping them reduce operating costs.

Services

We provide you with a complete range of spare parts, including both OEM (Original Equipment Manufacturer) components and those from our own brand, FILTER-MASTER.

With a strong understanding of filtration systems, we are able to address all of your needs for maintenance and new projects.
